

"Olimpiadi del Patrimonio" (Heritage Olympic Games)

Addressed to 15-18 year old students, the initiative consists of a contest on the knowledge and understanding of Italian artistic heritage. As permitted by the Italian law, teachers and students involved can count on the support of educational services operating all over the country. By a process of elimination, participants are challenged to compete and eventually asked to present a multimedia product focused on a specific artwork at their choice. Over 70 Italian schools participated to previous sessions; foreign partners will be maybe involved in the future.

Session 2009 is in preparation (additional information are available on Anisa web site www.anisa.it)

Responsible for the organization: Prof. Teresa Calvano (Roma)
